

Rest Assured – Nothing is as important to us as your baby and your trust.

Our commitment to help keep babies fed and healthy
is at the heart of how we make our products.

STEP 1: SCIENCE BASED NUTRITION

Before our products are made, our formulas are developed by scientists.

STEP 2: INGREDIENTS

All ingredients and packaging must pass quality checks before they can be used in our formulas.

STEP 3: PRODUCTION

Scientists test formula samples at multiple stages during production. We use trained professionals and technology to continuously monitor the making of our formulas.

STEP 4: PACKAGING

Once our product is in the package, we test the seal to be sure the product is protected.

STEP 5: TESTING AND SHIPPING

We test all finished infant formula prior to shipping. Every batch of powder infant formula must test negative for common harmful bacteria like *Cronobacter*.

Tande byen - Pa gen anyen ki enpòtan pou nou tankou tibebe w la ak konfyans ou.

Angajman nou pou n ede kenbe ti bebe yo nourri ak an sante fondamantal nan fason nou fabrike pwodwi nou yo.

ETAP 1: NITRISYON SYANTIFIK

Anvan pwodwi nou yo fabrike, syantifik nou yo devlope fòmil yo.

ETAP 2: ENGREDIYAN YO

Tout engredyan ak anbalaj yo dwe pase anpil kontwòl kalite anvan yo ka itilize nan fòmil nou yo.

ETAP 3: PWODIKSYON

Syantifik teste fòmil echantiyon yo nan plizyè etap nan pwodiksyon an. Nou itilize pwofesyonèl ki antrene ak bon teknoloji pou kontwole san rete fabrikasyon fòmil nou yo.

ETAP 4: ANBALAJ

Yon fwa pwodwi nou an nan anbalaj la, nou teste sele a pou asire ke pwodwi a pwoteje.

STEP 5: TESTING AND SHIPPING

Nou teste tout fòmil tibebe yo fini anvan nou voye yo. Chak pakèt fòmil tibebe an poud dwe teste negatif pou bakteri komen ki reprezante yon danje tankou *Kronobaktè*.
