

# Rest Assured – Nothing is as important to us as your baby and your trust.

Our commitment to help keep babies fed and healthy  
is at the heart of how we make our products.

## STEP 1: SCIENCE BASED NUTRITION

Before our products are made, our formulas are developed by scientists.

## STEP 2: INGREDIENTS

All ingredients and packaging must pass quality checks before they can be used in our formulas.

## STEP 3: PRODUCTION

Scientists test formula samples at multiple stages during production. We use trained professionals and technology to continuously monitor the making of our formulas.

## STEP 4: PACKAGING

Once our product is in the package, we test the seal to be sure the product is protected.

## STEP 5: TESTING AND SHIPPING

We test all finished infant formula prior to shipping. Every batch of powder infant formula must test negative for common harmful bacteria like *Cronobacter*.

# Xaqiiqdii - Majiraan wax nooga muhiimsan cunugaaga iyo aaminaadaada.

Dadaalkeena ku aadan gacan ka geysashada iquudinta carruurta iyo inay noqdaan kuwo caawimaad qaba ayaa udub dhexaad u ah alaabaha aan sameyno.

## TALLAABADA 1 AAD: NAFAQADA LAGUY SALEEYO SAYNISKA

Kahor inta aan la sameyn badeecadeena, caanaheena waxaa sameeya saynisyahaniin.

## TALLAABADA 2 AAD: MAADOOYINKA

Dhammaan maadooyinka kujira iyo hanaanka baakadeynta waa inay ka gudbaan nidaamka hubinta tayada kahor inta aan lagu darin caanaheena.

## TALLAABADA 3 AAD: WAX SOO SAARKA

Saynisyahanadu waxay baaraan saambalada caanaha dhowr jeer oo kaladuwan inta lagu jiro muddada lasoo saaraayo. Waxaan isticmaalnaa xirfadlayaal tababaran iyo teknoolajiyad si aad usoo wadno inaan la socono caanaheena.

## TALLAABADA 4 AAD: BAAKADEYNTA

Marka alaabteena la geliyo baakad, waxaan qiimeynaa koolada afka oga dhegan si aan u hubiyo.

## TALLAABADA 5 AAD: TIJAABADA IYO DIRISTA

Waxaan tijaabinaa dhammaan caanaha ilmaha yar ee la dhameeyay kahor inta aan la dirin. Qayb kasta oo ah caanaha ilmaha yaryar waa inaan laga helin bakteeriyada halista ah ahna bakteeriyada joogtada ah sida *Cronobacter*.
